- (f) The Operator acknowledges that the Charges payable by them have been calculated without regard to any GST (as defined in **clause 4.12**) that might become payable by ARTC in respect of the supply of or access to the Network in accordance with this Agreement. Subject to **clause 4.10(d)**, the continuance of the Security (or any replacement thereof under **clause 4. 10(b)**) is a condition of the performance by ARTC of its obligations under this Agreement. The decision of ARTC to issue a notice under **clause 4. 10(b)** is not subject to **clause 17**.
- (d) If, after Security has been provided in accordance with this clause, the Operator has not been in default in the payment of monies owed by it to ARTC under this Agreement for a continuous period of three (3) months, ARTC will, on request of the Operator, notify it that the Security is no longer required and forthwith release the Security to the Operator. This **clause 4.10(d)** does not preclude ARTC from issuing a further notice under **clause 4. 10(b)** if the circumstances described in that clause apply.
- (e) The amount of the Security will be reviewed every 12 months from the Commencement Date. The results of the review are not subject to **clause 17**.
- (f) The term of the Security must be for the same or a greater period than the Term under **clause 3**. The term of the Security must be extended to at least match any extension of the Term.
- (g) Upon expiry of the Agreement, ARTC shall release the Security to the Operator provided that at such time the Operator is not in default in the payment of any monies owed by it to ARTC under this Agreement.

4.11 Exercise of Security

- (a) The Security shall be held by ARTC as security for the performance of the obligations of the Operator under this Agreement and may be called upon by ARTC in any circumstances in which ARTC suffers any loss as a result of default by the Operator under this Agreement.
- (b) If ARTC exercises or draws on the Security, the Operator must promptly provide a replacement bank guarantee or letter of credit for the amount drawn or exercised by ARTC against the Security and otherwise on the same terms as the Security.

4.12 Goods and Services Tax

(a) Definitions

In this clause:

“**ANTS GST Act**” means the A New Tax System (Goods and Services Tax) Act 1999;

“**Consideration**” has the same meaning as in the GST Legislation but does not include the GST amount payable;

“**GST Legislation**” means the ANTS GST Act and associated legislation and regulations;

“**Input Tax Credit**” has the meaning given by Section 9-5 of the ANTS GST Act;

“**Tax Invoice**” means an invoice as prescribed in the GST Legislation;

“**Taxable Supply**” is a Taxable Supply as defined in section 9-5 of the ANTS GST Act.

(b) Adjustment

ARTC and the Operator acknowledge and agree and/or warrant (as the case may be) that if GST has application to any Taxable Supply made under this Agreement by either ARTC or the Operator (“**supplier**”) to either ARTC or the Operator (“**recipient**”) as the case may be that the supplier may, in addition to the Consideration but subject to providing a Tax Invoice to the receipt, recover from the recipient (and the recipient shall pay or reimburse the supplier) an additional amount on account of GST, such additional amount to be calculated in accordance with GST Legislation and shall be paid by the recipient on the same terms and conditions as stated in this Agreement.

(c) Reimbursement

If either party is entitled under this Agreement to be reimbursed or indemnified by the other party for a cost or expense incurred in connection with this Agreement, the reimbursement or indemnity payment must not include any GST component of the cost or expense for which an Input Tax Credit may be claimed by the party entitled to be reimbursed or indemnified.

4.13 Costs

The Operator agrees:

- (a) to pay at least one half of ARTC’s legal costs of and incidental to the preparation, negotiation and engrossment of this Agreement, together with any extension or renewal of this Agreement; and
- (b) as between the parties, to pay, if payable, any stamp duty (including without limitation any associated fees, fines and penalties thereon) in all relevant jurisdictions on this Agreement and any document contemplated or allowed by this Agreement.

5. CONTROL AND MANAGEMENT OF ACCESS TO THE NETWORK

5.1 ARTC to Control

As between the parties, control of the Network and management of access to the Network, remains at all times with ARTC.

5.2 Warranty of Entitlement to Grant Access

ARTC warrants that it is entitled to grant to the Operator all of the Operator's rights of access to the Network described in this Agreement (but in the case of that part of the Network owned or managed by another person, subject to the terms by which that other person permits the Operator access to such part of the Network or by which that other person permits ARTC to allow the Operator to have access to such part of the Network).

5.3 Network Access Provider's Obligations

ARTC agrees at all times during the Term:

- (a) to undertake the function of Train Control over the Network;
- (b) to comply with the Network Management Principles;
- (c) to safely and efficiently operate the Network so that any permitted use of the Network by the Operator is facilitated promptly and effectively and in accordance with this Agreement;
- (d) to receive, record and collate information from the Operator and other users of the Network for the purposes of generating the Invoices referred to in **clause 4.5** and more effectively exercising the functions referred to in **clauses 5.3(a)** and **(b)**;
- (e) to maintain and operate the Train Control Centre and a communication system for the purpose of communication with the Operator and other users of the Network, and to facilitate the Operator's access to that communication system;
- (f) to use its best endeavours to provide the Operator with details, as soon as reasonably practicable of all operating incidents (including an Incident) which has affected or could potentially affect the ability of any Train to retain its Train Path, or else affect its security or safety or the security and safety of the freight or passengers; and
- (g) to comply with all applicable Acts of the Commonwealth and State Parliaments, subordinate legislation, municipal by-laws and other laws in any way applicable to ARTC's management, control and ownership of the Network.

5.4 Rolling Stock

The Operator agrees as at the Commencement Date and at all material times during the Term to maintain each Train operated by the Operator on the Network in a good and safe operational condition.

5.5 Operator's Obligations

The Operator agrees at all times during the Term:

- (a) to use its best endeavours to ensure that its use of the Network complies with the Train Paths applicable to each Service;
- (b) to comply with the Code of Practice;
- (c) to conduct itself in accordance with Instructions issued;

- (d) that if it becomes aware that material non-compliance by a Service with the applicable Scheduled Train Path (or such other Train path which may be agreed) has occurred or is a reasonable possibility, to notify the Train Control Centre immediately;
- (e) to ensure that its use of the Network is carried out in such a way as to minimise obstruction of the Network and so that use of the Network by any other user authorised by ARTC is not prevented or delayed (other than through use of the Network in accordance with this Agreement or through proper compliance with an Instruction validly given);
- (f) to comply with all applicable Acts of the Commonwealth and State Parliaments, subordinate legislation, municipal by-laws and other laws in any way applicable to operation of the Services or its use of the Network;
- (g) not to materially change, alter, repair, deface or otherwise affect any part of the Network, Associated Facilities, ARTC's property or property of third parties provided that the obligation of the Operator in this clause extends only to such matters to the extent that they were caused or contributed to by the Operator and train operations it conducts;
- (h) not to materially damage the Network, Associated Facilities, ARTC's property or property of third parties. For the purposes of this clause "damage" does not include normal wear and tear where the Operator is accessing the Network or Associated Facilities in accordance with the terms of this Agreement.
- (i) to provide and maintain communications equipment which is compatible with the equipment used in the Train Control Centre and to use such equipment to communicate with the Train Control Centre.
- (j) where ARTC proposes to change communications equipment in the Train Control Centre:
 - (i) the Operator agrees to share information and cooperate with ARTC and any Communications or TMS Provider to the extent that may be required to ensure that the parties' objectives in clauses 5.3 and 5.5 are achieved;
 - (ii) if where such proposal will result in the Operator having to replace or upgrade its communications equipment, ARTC will consult with the Operator and the Operator will, after such consultation and after reasonable notice from ARTC to the Operator, reasonably replace or upgrade the communications equipment to be compatible with the equipment used in the Train Control Centre.
- (k) subject to **clause 18**, to provide to ARTC such information related to the operation of the Services (excluding commercial information) as ARTC reasonably requires to enable it to properly perform its functions and discharge its obligations to the Operator and other operators(l) to provide to ARTC a Train Manifest in a format acceptable to ARTC for each Service not less than 15 minutes prior to that Service commencing use of the Network and to provide notice in a form specified by ARTC of any detail of the Train Manifest which changes during the course of the operation of the Service over the Network.
- (m) to inform ARTC as soon as reasonably practicable of any cancellation or intended cancellation by the Operator of any Service.
- (n) to ensure that the any item of freight or material, including but not limited to minerals, bulk goods or commodity (in whatever form), being hauled on or in Train operated by the Operator does not fall, leak, spill, escape or become deposited on or adjacent to the Network.

5.6 Conduct of ARTC

- (a) In formulating its Indicative Access Charges, ARTC will not differentiate between operators in circumstances where:
 - (i) the characteristics of the Indicative Services are alike; and

- (ii) the operators are operating within the same end market.

In determining whether the characteristics of two Indicative Services are alike ARTC may have regard to matters including but without limitation location, duration and quality of the Train Path, nature of Train consist, characteristics of the Indicative Service, longevity of access, arrival and departure times of the day and week.

- (b) Without limiting **clauses 5.6(a)**, if:

- (i) ARTC sells a train path for an Indicative Service to a third party ("**Third Party Train Path**"); and
- (ii) the Operator considers, acting reasonably, that the Third Party Train Path is a like train path when compared to a Train Path for an Indicative Service purchased by it under this Agreement ("**Like Train Path**"); and
- (iii) the Operator has evidence to suggest that the Third Party Train Path has been sold by ARTC for a price less than that charged by ARTC to the Operator for the Like Train Path,

then the Operator may make a written submission to ARTC claiming that the Indicative Access Charges payable by it under this Agreement for the Like Train Path should be reduced to that charged by ARTC for the Third Party Train Path, such submission detailing at least the following:

- (iv) the Indicative Access Charges payable by it for the Like Train Path;
 - (v) why the Like Train Path and the Third Party Train Path are to be considered like Train Paths in the context of **clause 5.6(b)**;
 - (vi) the Indicative Access Charges that the Operator asserts ARTC is charging the third party for the Third Party Train Path.
- (c) ARTC will, within 30 days of receipt of a written submission under **clause 5.6(c)**, notify the Operator whether:
 - (i) it agrees with the submission and that the Operator's Indicative Access Charges have been reduced accordingly; or
 - (ii) it disagrees with the submission and the reasons why.
 - (d) In the event that the Operator does not agree with ARTC's decision under **clause 5.6(c)(ii)** and the reasons for it, the Operator may give ARTC a notice under **clause 17** whereupon the dispute will be resolved in accordance with **clause 17**.

5.7 Removal of Rolling Stock from Network

- (a) If ARTC considers that a Train operated by the Operator is obstructing the Network, the Operator will upon being notified in writing or by electronic mail of that obstruction arrange for the Train operated by the Operator to be moved by or at the time specified in such notice off or to another part or parts of the Network nominated by ARTC.
- (b) Subject to **clause 5.7(c)**, if the Operator does not so remove or move the Train operated by the Operator under **clause 5.7(a)**, the Operator consents to ARTC arranging for the Train operated by the Operator to be removed from or moved to another part or parts of the Network, at the cost and expense of the Operator in all things.
- (c) Notwithstanding any other provision of this Agreement, the Operator will release and indemnify ARTC or its servant, agent, employee, contractor or volunteer for all and any injury, loss and damage arising from or related to the removal or movement arranged by ARTC under **clause**

5.7(b), including without limitation where such injury, loss and damage is caused by the negligence of ARTC or its servant, agent, employee, contractor or volunteer.

6. REPAIRS AND MAINTENANCE OF THE NETWORK

6.1 ARTC to Repair and Maintain the Network

Subject to **clauses 6.2, 9.3 and 9.4** ARTC agrees at all times during the Term to maintain the Network (but only in so far as the Network is relevant to the Operator's Scheduled Train Paths) in a condition which is fit for the use by the Operator to provide rail transport services.

6.2 Operating Restrictions

When required by the condition of the Network or any part of the Network, ARTC may (to the extent of such requirement only) give notice of speed and weight restrictions and the Operator must comply with such a notice.

7. ACCREDITATION

7.1 Accreditation Warranty

- (a) Each party warrants that during the Term each such party has and will maintain Accreditation to the extent required by law, including, in the case of the Operator, all accreditation required by law in relation to Rolling Stock used by the Operator on the Network.
- (b) The parties will notify each other of any notice received from any government authority affecting Accreditation.
- (c) The Operator must not run Rolling Stock on the Network in breach of **clause 7.1(a)**.
- (d) Where a third party audit of equipment or maintenance practices is requested by the Accrediting Authority with respect to the maintenance of the Operator's Accreditation, the Operator will provide a copy of that audit to ARTC at the same time such audit report is given to the Accrediting Authority.
- (e) If a party loses part or all of its Accreditation or has part or all of its Accreditation suspended, that party must use its best endeavours to regain or have restored its full Accreditation as soon as is reasonably practicable.

7.2 Evidence of Accreditation

- (a) Each party must on or before the Commencement Date (and in the case of Accreditation which is obtained for the first time after the Commencement Date, then as soon as practicable such Accreditation is obtained) provide to the other party evidence of its Accreditation. A copy of all documents evidencing renewal or amendment of Accreditation must be provided by a party to the other party on the written request of the other party

7.3 Termination of this Agreement by Reason of Suspension or Cancellation of Accreditation

If either party's Accreditation is:

- (a) suspended for a continuous period of longer than 6 months; or
- (b) cancelled for a continuous period of longer than 1 month,

the other party has the rights of termination set out in **clause 14.3**. This clause does not derogate from the parties' rights under **clause 14** in respect of termination of this Agreement.

8. COMPLIANCE

8.1 Issue of Instructions by ARTC

- (a) ARTC may issue Instructions to the Operator.
- (b) Instructions may include, but are not limited to, instructions or directions:
 - (i) to cease use of a Scheduled Train Path by the Service and for the Service to proceed over such path on the Network as ARTC nominates;
 - (ii) to continue use by the Service of the Network subject to such variation of the applicable Scheduled Train Path or the Service or the composition or quality of Trains as ARTC nominates;
 - (iii) to cause the Service to proceed to a point on the Network and stand there until ARTC issues a further instruction or direction in relation to the Service; or
 - (iv) without limiting the generality of **clauses 8.1(b)(i) to (iii)**, if the Service operates outside of its Scheduled Train Path, to delay or redirect the Service to allow access to the Network by another operator of a Train (including, if relevant, ARTC) whose service would, but for the delay or redirection of the Operator's Service, be delayed or further delayed.
- (c) ARTC must:
 - (i) in giving any Instruction have due regard to minimising the disruption to the Operator's Services; and
 - (ii) other than in an emergency, consult with the Operator in giving an Instruction concerning the use of an Operator's locomotive and its crew for the purpose of assisting in the clearing of a Network blockage.
- (d) If an Instruction which varies the Operator's Train Paths is intended by ARTC to be permanent, such permanent effect of the Instruction will not take effect until the procedure in **clause 9.2** for permanent variation of a Train Path has been satisfied. Until the **clause 9.2** procedure has been satisfied such Instruction will nevertheless have a temporary effect.
- (e) As soon as is reasonably practicable and in any event before an Instruction becomes effective, ARTC must give to the Operator a written copy of the Instruction if such Instruction is ordinarily advised in writing by ARTC to operators.

8.2 Compliance by the Operator with Instructions and Train Control Directions

- (a) Subject to **clause 8.2(c)**, the Operator will comply with all Instructions and will promptly advise all relevant Train crew of any changes to or the making or giving of Instructions.
- (b) If an Instruction is a Train Control Direction, it must be complied with immediately.
- (c) Unless the Train Control Centre gives an Instruction that is a Train Control Direction, the Operator need only comply with an Instruction if it was given a reasonable time before the required time for compliance.
- (d) The Operator must comply with all Instructions in such a way as to reasonably minimise disruption to any other person's use of the Network.
- (e) Subject to **clause 15**, ARTC is not responsible for any delay suffered or cost incurred by the Operator in complying with a proper Instruction of ARTC, and the Operator releases ARTC from any Claim arising from such compliance.

- (f) Subject to **clause 15**, the Operator is not responsible for any delay suffered or cost incurred by ARTC in the Operator complying with a proper Instruction of ARTC, and ARTC releases the Operator from any such Claim arising from such compliance.

8.3 Compliance

The Operator must at its own cost during the Term:

- (a) comply with all laws which affect or relate to the use of Train Paths regardless of whether the law requires compliance by either or both of ARTC and the Operator or any other person, but not to the extent that compliance by the Operator is prohibited by law;
- (b) comply with all notices, orders and directions lawfully issued or given by or agreements with a Governmental Agency which affect or relate to the use of Train Paths regardless of whether the notice, order or direction is addressed to or requires compliance by either or both of ARTC and the Operator or any other person, but not to the extent that compliance by the Operator is prohibited by law;
- (c) obtain, maintain and comply with all approvals, licences or permits which from time to time may be necessary or appropriate for the use by the Operator of Train Paths regardless of whether the approval, licence or permit requires compliance by either or both of ARTC and the Operator or any other person, but not to the extent that compliance by the Operator is prohibited by law; and
- (d) comply with and/or not cause ARTC not to comply with all approvals, licences or permits obtained by ARTC with respect to the Network, provided ARTC has given the Operator notice of such approval, licence or permit.

9. VARIATION OR CANCELLATION OF TRAIN PATHS

9.1 Examples of Temporary Variations of Train Paths by the giving of Instructions by ARTC

- (a) For the avoidance of doubt, and without limiting the generality of **clause 8.1(a)**, the Operator's Train Paths may be temporarily varied by the giving of Instructions:
 - (i) for the purpose of preventing any actual or potential:
 - (A) breach of the Safeworking Rules or of **clause 12** by the Operator or of similar safety requirements by other operators on the Network;
 - (B) material damage to the Network, ARTC's property or any Associated Facilities;
 - (C) injury to any person or damage to any property;
 - (D) delay to the progress of Trains on the Network (but only insofar as any trains operated by a third party have priority over the Operator's trains having regard to the Network Management Principles); or
 - (E) terrorism and security matters; or
 - (ii) for the purpose of preventing, or in response to, any actual or threatened breach by the Operator of any of its material obligations under this Agreement.
- (b) The Instructions referred to in **clause 9.1(a)** may comprise, but need not be confined to, Instructions in one or more of the following terms:
 - (i) to cease use of a Train Path by the Service and for the Service to proceed over such path on the Network as ARTC nominates;

- (ii) to continue use by the Service of the Network subject to such variation of the applicable Train Path or the Service or the composition or quality of Trains as ARTC nominates;
- (iii) to cause the Service to proceed to a point on the Network and stand there until ARTC issues a further Instruction in relation to the Service; or
- (iv) if the Service operates outside of its Train Paths, to delay or redirect the Service to allow access to the Network by another operator of a Train whose service would, but for the delay or redirection of the Operator's Service, be delayed or further delayed.

9.2 Permanent Variations to Scheduled Train Paths

- (a) This **clause 9.2** sets out the procedure to be followed by the parties if it is intended that a Scheduled Train Path is to be permanently varied.
- (b) A Scheduled Train Path may be varied for the remainder of the Term (or for such other duration as may be agreed) if:
 - (i) one party to this Agreement ("**Requesting Party**") sends a notice to the other party ("**Notified Party**") stating:
 - (A) that the Requesting Party wishes to vary the use by the Operator of a Scheduled Train Path;
 - (B) the length of time such variation will be in force; and
 - (C) the reason or reasons for the proposal by the Requesting Party; and
 - (ii) subject to the qualifications set out in **clause 9.2(b)(ii)**, **9.3**, **9.4**, **9.5**, **9.6** and **19.2**, the Notified Party consents to the Requesting Party's proposed variation, such consent to be withheld only upon reasonable grounds
 - (iii) For the purpose of clause 9.2(b)(ii) the Operator cannot withhold consent in the case of variations required:
 - (A) by reason of ARTC's obligations relating to safety of the Network;
 - (B) for the purpose of Passenger Priority; and
 - (C) for the purpose of maximising the use and the reliability of the Network.
- (c) Subject to **clauses 9.3**, **9.4**, **9.5**, **9.6** and **19.2**, the Requesting Party must give not less than 30 days notice of a variation request under **clause 9.2(b)(i)**.
- (d) The Notified Party's response as to whether it consents or not under **clause 9.2(b)(ii)** to the Requesting Party's notice given under **clause 9.2(b)(i)** must be given to the Requesting Party within 28 days of such notice being received by the Notified Party or within such shorter time if reasonably practicable. If the Notified Party's response is to refuse consent, the Notified Party must within such time also provide full reasons in writing to the Requesting Party.

9.3 Repairs, Maintenance and Upgrading of the Network

- (a) Notwithstanding any other provisions to the contrary in this **clause 9**, but subject only to **clauses 9.3(b)**, **9.3(c)** and **9.4** ARTC may, without notice to the Operator, perform repairs, maintenance or upgrading of the Network, carry out any new work on the Network, or take possession of any part of the Network, at any time.

- (b) If repairs, maintenance or upgrading of the Network, the carrying out any new work on the Network, or taking possession of the Network, are reasonably likely to materially affect the Scheduled Train Paths, ARTC must, prior to commencement of the works:
 - (i) take all reasonable steps to minimise any disruption to the Scheduled Train Paths;
 - (ii) notify the Operator of the works as soon as reasonably practicable; and
 - (iii) use its best endeavours to provide an alternative Train Path,
 but need not obtain the Operator's consent to such repairs, maintenance or upgrading, or possession of the Network.
- (c) Possession of the Network means closure of the relevant part of the Network to all traffic for the purpose of effecting repairs, maintenance or upgrading. ARTC will consult with the Operator a reasonable time before taking possession of the Network (except in the case of an emergency) with a view to efficient possession planning and with a view to minimising disruption to Services.

9.4 Third Party Works

- (a) The Operator acknowledges that:
 - (i) Third Parties (some of whom have statutory rights) may wish to carry out or require to be carried out Third Party Works on the Network during the Term; and
 - (ii) Notwithstanding any other provision of this Agreement, ARTC reserves the right to permit Third Parties to carry out Third Party Works.
- (b) Notwithstanding any other provision of this Agreement, the Operator agrees that ARTC has no liability to the Operator nor will the Operator make a claim against ARTC for any costs, expenses, losses or damages incurred by the Operator in relation to or as a consequence of Third Party Works.

9.5 Removal of Train Path for Under-utilisation

- (a) ARTC has the right, by notice in writing to the Operator, to delete any Scheduled Train Path from **Schedule 2** (upon which deletion **Schedule 2** is deemed to be amended accordingly) if the Service using that Scheduled Train Path is not operated 7 or more times (whether consecutively or not) out of any 12 such Services which are consecutively scheduled. Such notice may only be given within 14 days after the seventh occasion of not operating.
- (b) Other than if the parties agree to substitute an alternative Train Path a Service has not been operated within the meaning of **clause 9.5(a)** if the Operator has failed:
 - (i) to present a Train at the scheduled entry point onto the Network; or
 - (ii) to operate the relevant Train so that it completes its full journey,
 in conformance with the locations, days and times set out in the Scheduled Train Paths applicable to such Service.

9.6 Review of Scheduled Train Paths

- (a) Scheduled Train Paths will be subject to a review in accordance with this **clause 9.6**.
- (b) ARTC may at its discretion by written notice given to the Operator cause a Scheduled Train Path to be reviewed in a bona fide manner by the parties by comparing the stated departure and arrival times for the Scheduled Train Path with the performance during the preceding continuous 3 month period of the actual Trains using or purporting to use that reviewable entitlement ("**3-month history**").

- (c) If on such comparison of the Scheduled Train Path with the 3-month history the departure or arrival times for a Train using or purporting to use the Scheduled Train Path differ in material respects, the parties will negotiate in good faith to amend the Scheduled Train Path so that the Scheduled Train Path reflects, as closely as is reasonably practicable, the 3-month history.
- (d) Nothing in this **clause 9.6** compels ARTC to offer a Train path to the Operator under **clause 9.6(c)** if:
 - (i) such Train path is unavailable by reason of contractual obligations owed by ARTC to any person (including the Operator); or
 - (ii) to do so would materially adversely impact on ARTC's ability or opportunity to efficiently and safely manage the Network; or
 - (iii) the Operator does not agree to pay all fees and Charges applicable to such offered Train path.
- (e) Nothing in this **clause 9.6** compels the Operator to accept a Train path offered by ARTC under **clause 9.6(c)** if contractual obligations owed by the Operator to any person (including ARTC) would prevent it from doing so.

9.7 Cost of Variation

Subject to **clause 15**, any losses, additional costs (excluding Charges) or other damage suffered by a party in complying with a variation under **clauses 9** and **22** will be borne between the parties to this Agreement in such proportion as the parties agree (based on negotiations carried on in good faith), or in the absence of such agreement, and subject to a party's obligation under **clause 15** to indemnify the other in the circumstances set out in that clause, by the party which incurs such losses, additional costs or other damages.

9.8 Effect of Variations to Train Paths on Schedule 2

- (a) A temporary variation pursuant to **clauses 8.1, 9.1, 9.2, 9.3** or **9.4** of the Scheduled Train Paths has the effect of suspending all contrary or inconsistent Scheduled Train Paths in **Schedule 2** for the duration of such temporary variation.
- (b) Only permanent variations pursuant to **clauses 8.1, 9.2, 9.4, 9.5, 9.6, 19.2** or **22** of the Operator's Scheduled Train Paths will be, and are hereby, deemed to be an amendment to **Schedule 2**.

9.9 Cancellation of Scheduled Train Paths

- (a) The Operator may, upon 24 hours prior written notice to ARTC, cancel in any 12 month period within the first 12 month period commencing on the Commencement Date, such number of Services per Scheduled Train Path as specified in **Schedule 2** with no liability to ARTC to pay for the Charges in respect of the Services so cancelled. For the purpose of this clause, each one way journey is deemed to be a separate service.
- (b) The Operator may cancel certain Scheduled Train Paths at will by serving a written notice on ARTC to that effect in accordance with this clause.
- (c) For a Scheduled Train Path of up to 5 years duration, the period of notice required is one (1) year or the balance of the term of the Scheduled Train Path, whichever is the lesser.
- (d) For a Scheduled Train Path of 10 years duration, the period of notice required is two (2) years or the balance of the term of the Scheduled Train Path, whichever is the lesser.

- (e) For Scheduled Train Paths of between 5 and 10 years duration, the period of notice shall be, subject to **clause 9.9(g)**, a pro-rata period of notice determined by the following formula:

$$N = 365 + \frac{365 (A-5)}{7}$$

where:

N = is the period of notice in weeks

A = is the term of the Scheduled Train Path in years

or the balance of the term of the Scheduled Train Path, whichever is the lesser.

- (f) During the notice period under this clause, the Operator will still be obliged to pay the Charges whether or not the Operator operates a Service. Nothing in this clause prevents the Operator from operating a Service during the notice period and paying ARTC the full Charges payable under this Agreement in respect of that Service.
- (g) Where the Operator has given notice under **clause 9.9(e)** and continues to operate Services during the notice period as calculated under **clause 9.9(e)**, the notice period required shall be reduced in accordance with the following formula:

$$N_2 = N_1 - 2 (U)$$

where:

N_2 = The amended period of notice in weeks

N_1 = The period of notice calculated under **clause 9.9(e)**

U = the number of weeks of the notice period calculated under **clause 9.9(e)** during which the Scheduled Train Path will be utilised.

Where N_2 equates to zero or a negative figure, no notice is required.

- (h) A notice given by the Operator in accordance with this clause will be, and is hereby deemed to be, an amendment to **Schedule 2** upon the expiry of the notice period.
- (i) If:
- (i) a Scheduled Train Path is cancelled by an Operator; and
 - (ii) by virtue of this clause, the Operator is required to pay ARTC Charges during the relevant notice period ("Cancellation Charge"); and
 - (iii) ARTC is able to sell a Scheduled Train Path to another operator (which is a like Train Path when compared to the Scheduled Train Path cancelled by the Operator) within three (3) months of the date of cancellation;

9.10 ARTC may refund the Cancellation Charge to the Operator. Whether the cancelled and new Scheduled Train Paths are alike is to be determined by ARTC having regard to the criteria referred to in **clause 5.6(a)**.

10. INSPECTION AND AUDIT BY NETWORK ACCESS PROVIDER

10.1 Audit Obligation

Subject to **clause 10.2**, ARTC may at any time by Instruction from ARTC to the Operator require a particular Service of the Operator which is using the Network to undergo an audit for the purpose of assessing:

- (a) the Operator's compliance with the terms and conditions of this Agreement, including whether the Train Manifest provided by the Operator under **clause 5.5(j)** is correct;
- (b) whether any one or more of the individual wagons used by the Operator in the provision of a Service is loaded in excess of its rated carrying capacity; or
- (c) whether any one or more of the individual wagons used by the Operator in the provision of the Service is loaded in an unsafe or potentially unsafe manner.

10.2 Limitations on Audit

ARTC must:

- (a) subject to **clause 10.2(b)**, carry out not more than such number of audits under **clause 10.1** as are reasonably necessary in all the circumstances; and
- (b) use its best endeavours in the conduct of such audit to minimise the disruption to the Operator's Service.

10.3 Instructions

- (a) In consultation with the Operator, ARTC will formulate and periodically review and update plans which are consistent with ARTC's Accreditation requirements.

13.4 Notification of Incident involving Dangerous Goods

Other than in the case of Trains which are wholly passenger Trains, the Operator will provide to ARTC details, at the earliest practicable time after the Operator becomes aware, of all incidents (including non-compliance with relevant codes, regulations, bylaws or other statutory provisions, whether or not an Incident) involving dangerous goods including but not limited to any spillage, leakage or container or package damage associated with the movement of any Train on the Network.

- (A) 7 days written notice in relation to a default relating to safety; or
 - (B) 14 days written notice in relation to defaults other than relating to safety.
- (c) If the defaulting party does not within a reasonable time after the suspension of this Agreement under **clause 14.1(b)** rectify the default, this Agreement may be terminated by giving not less than the period of notice described in **clauses 14.1(b)(A)** and **(B)**.

SCHEDULE 5
Key Performance Indicators
(Clauses 1.1 & 2.9)

KEY PERFORMANCE MEASURES

Reliability

Measured by:

Indicator	Measure	Level of Detail
Exit Performance of Healthy Trains*	% on time exit (within agreed tolerance) from ARTC network of healthy services	By operator By service (MP5, AP4 etc)
Non-deterioration of Unhealthy Trains*	% non-deterioration (within agreed tolerance) of unhealthy services while on ARTC network	
Train Health*	% of total services which are operated in a healthy manner	

* "Healthy Train" means a Train that, having regard to the daily train plan applicable on the day:

- (a) presents to the Network within agreed tolerance, is configured to operate to its schedule and operates in a way that it remains able to maintain its schedule; or
- (b) is running late only due to causes within the Network, but only where the root cause is outside the rail operator's control; or
- (c) is running on time within agreed tolerance, regardless of previous delays.

Measurement should exclude performance affected by a force majeure event.

Measurement would be on a monthly basis.

Speed Restriction Impact - Theoretical Benchmark

Measure the movement over time of the impact of prevailing speed restrictions on train running (measured in minutes):

- Model/estimate the extent of the impact of temporary speed restrictions in existence as at an agreed point in time.
 - Impact estimates for a typical train over current track under typical environmental conditions
- Periodically model/estimate the impact of prevailing temporary speed restrictions on typical train running.
- Measure the variation in the impact of prevailing temporary restrictions over time compared to initial measurements.
- Typical train and track should be specific to operator, flagfall type and route.
- Measurement and modelling costs should be borne jointly.
- Modelling/estimation would be on a monthly or quarterly basis depending on cost.

Availability

Measure:

- % of agreed paths varied for the purpose of track owner possession
 - Exclude force majeure events
 - Reporting would be at total operator level and on a monthly basis.

Safety

Measure:

- No. of reportable occurrences specific to an operator and categorised as per current regulatory requirement.
 - Major/Minor
 - By type of incident (rollingstock defect, safeworking breach etc)
- Reporting should focus at the operator and relevant corridor level, and be carried out on a monthly basis.
- Reporting will be carried out by network manager (to operator) and by operator (to network manager).

Train/Rollingstock Quality

Identify those aspects of train and rollingstock “quality” which can be reasonably and should be measured (eg. wheel condition, axle loading, wagon ride quality, train length/power).

Identification of aspects suitable for measurement and reporting may evolve over time.

Measure:

- Incidence of failure by aspect of train quality.
 - Measurement would be made by various available detection devices (eg wheel impact detector, bearing detector etc)
 - Reporting would be at a total operator level and on a monthly basis.
 - Measurement should be jointly funded.

Track Quality

Measure:

- Track Quality Index (summation of weighted measures (standard deviations x 3) related to track condition parameters) for a corridor /segment of track.
 - Calculated over 100m sections, using 0.5m raw data from measuring car equipment.
 - Relevant TQI component measures include:
 - Vertical alignment (20m inertial top (average of left and right rails))
 - Horizontal alignment (versine over a 10m chord (average over left and right rail))
 - Twist (relative height of two rails measured over 2.0m)
 - Gauge variation (distance between tracks)
- Other track surface condition measures:
 - Impact Loading (weld dips)
 - Roughness (corrugations)
- Standards of measurement and definitions would be consistent with those currently employed and available to ARTC (AK car)
- Reporting would be on the basis of corridors/segments relevant to the operator and carried out on a quarterly basis (TQI) and up to annually (other measures).

SCHEDULE 6
Train Decision Factors
(Clause 1.1)

Schedule 6

Train Decision Factors

The following definitions apply in Schedule 6:

"Commuter Peak Services" means RailCorp's commuter rail passenger services arriving at Central Station or Newcastle Station between 0600 and 0900 hours and departing Central Station or Newcastle Station between 1600 and 1800 hours and continuing until they reach their destination point.

"Express Freight Services" means those freight services capable of maintaining sectional running times that are, or are determined by the appropriate Train Controller, to operate at faster sectional times than local Frequent-Stopping Services.

"Frequent-Stopping Services" means those rail passenger services that stop at most or all stations along their Train Path.

"Healthy Train" means a Train that, having regard to the daily train plan applicable on the day:

- (a) presents to the Network on time, is configured to operate to its schedule and operates in a way that it remains able to maintain its schedule; or
- (b) is running late only due to causes within the Network, but only where the root cause is outside the rail operator's control; or
- (c) is running on time, regardless of previous delays.

"Limited-Stop Services" means those rail passenger services that stop at a few selected stations along their Train Path.

"Long-distance Passenger Services" means those rail passenger services operating to or from points outside the metropolitan rail area, excluding RailCorp's CityRail services.

"Non-Revenue Positioning Movements" means movements of Trains required for reasons other than revenue services.

"Special Event" means a major community, cultural, sporting or similar event within the metropolitan rail area, which is identified as such by a relevant NSW agency, and which may require:

- (a) a special timetable for the operation of RailCorp rail passenger services before, during and after the event; and
- (b) significant operational priority for RailCorp rail passenger services; and
- (c) consequential adjustments to other rail operators' services;

"Train" means a single unit of rolling stock or 2 or more units of rolling stock including a locomotive or other self propelled unit coupled together to operate on the Track as a single unit.

"Train Control" means the control and regulation of all rail operations (including Train Movements, movements of rolling stock and track maintenance vehicles) to ensure the safe, efficient and proper operation of the Network.

"Train Movement" means a particular trip by a Train on a Train Path.

"Train Path" means the series of network segments over a particular time interval through which a Train can travel and may include stopping points and intervals and fuelling stations and other set down or changeover points.

TRAIN DECISION FACTORS:

1. **Where Trains are on-time**, they will be managed as specified in the daily train plan.
2. **Where one or more Trains are late or unhealthy**, they will be managed as specified in the matrices below subject to a rail operator's preferences for its own services.

The 2 tables are used in conjunction with each other. Table 1 will enable a person undertaking Train Control ("**Train Controller**") to define the relative priority of two conflicting Trains. Table 2 will specify the type of decision available to Train Controller in delivering Train Control directions to resolve the potential conflict.

Table 1 – Train Priority Matrix

Decreasing order of priority	Type of train service in ARTC Network
From Highest	Long-distance Passenger Services
	Commuter Peak Services and rail passenger services likely to affect Commuter Peak Services or Special Event services
	Limited -stop non-Commuter Peak Services
	Freight services likely to affect Commuter Peak Services or Special Event services
	Express Freight Services
	Frequent-Stopping Services (non-Commuter Peak Services)
	Non-express Freight Services
To Lowest	Non-Revenue Positioning Movements

Table 2 – Decision Matrix

Trains of Equal Health	Both Healthy One on Time & One Late	Both Late
Equal Priority Trains	Rule 1 + 2	Rule 3
Unequal Priority Trains		Rule 6 + 3
Higher Priority Train is On Time + Lower Priority is Late	Rule 5 + 2	
Higher Priority Train is Late + Lower Priority Train is On Time	Rule 4 + 2	

Trains of Unequal Health	Rule 7 + 2
--------------------------	------------

Rule 1:

- (a) A Healthy Train should be managed such that it will exit on time.
- (b) If a Healthy Train is running late, it should be given equal preference to other Healthy Trains and advanced wherever possible to regain lost time. Any delay to other Healthy Trains as a result of such advancement must be kept to a minimum as defined in **Rule 2**.

Rule 2: The following delay limits apply to the full journey of a Healthy Train being held back:

- (a) the delay to the individual rail passenger service held back does not exceed 5 minutes;
- (b) there is a plan in place to recover lost time so that the downstream effect on the service held back and on individual subsequent rail passenger services also does not exceed 5 minutes;
- (c) the delay to a freight service held back does not exceed 15 minutes; or
- (d) there is a plan in place to recover lost time so that the downstream effect on the healthy freight service held back and on individual subsequent healthy freight services also does not exceed 15 minutes. Any plan for the recovery of time by freight services must be capable of being achieved prior to their entry into the metropolitan rail area.

Rule 3: Give preference to the Train whose Train performance indicates it will lose least or no more time and even make up time and hold the gain; and consider downstream effect to minimise overall delay.

Rule 4: A lower priority Train gets preference. A higher priority Train can be given preference subject to the delay to the lower priority Train being kept to a minimum as defined in Rule 2.

Rule 5: A higher priority Train should be given preference over a lower priority Train. A lower priority Train may be given preference over higher priority Train provided the delay to that Train is kept to a minimum as defined in Rule 2.
