

Major Maintenance

The Access Holder Agreement clause 3.2 requires the following information to be provided by 1 July of each Contract Year on a reasonable endeavours basis, but in any event before 30 September of each Contract Year, in respect to the following Contract Year:

- Annual maintenance assumptions;
- Maintenance Months (ie those months in which major network possessions are planned to occur);
- Maintenance Losses (ie the coal train path usage losses resulting from the major network possessions);
- Any known Availability Exceptions.

ARTC's maintenance assumptions for the 2014 calendar year are that there will be a series of major maintenance possessions on the network across all Pricing Zones, each of 3 to 5 continuous days in the months listed in the table below*.

The table below lists the nominated Maintenance Months and aggregate number of path usages lost in each pricing zone per month as a result of major network possessions relative to overall Network Path Capacity (NPC).

There are no known Availability Exceptions for the period covered in the table at this time.

Major Maintenance Months		Jan14	Feb14	Mar14	Apr14	May14	Jun14	Jul14	Aug14	Sep14	Oct14	Nov14	Dec14
