

GRAFTON YARD TRACK MAINTENANCE OCTOBER 2021

Commencing 2:00pm Saturday, 30 October

Maintenance works

Australian Rail Track Corporation (ARTC) will be carrying out track maintenance this October to maintain a safe and reliable rail network.

Track Strengthening

We will be carrying out track strengthening maintenance work which involves replacing worn track components. This track strengthening maintenance project will be replacing a large track component known as a turnout. This work is scheduled between **2:00pm Saturday 30 October and 6:00pm Sunday 31 October** with no night work scheduled.

How could this work affect you?

The work will involve the use of machinery which will generate some noise. We will turn off machinery when not in use, arrange work in stages and/or phase the equipment used at one time to reduce noise impacts where possible.

The movement of materials and machinery on site may result in the generation of dust. We will take practical measures to reduce the amount of dust produced by our works. We recommend keeping windows and doors closed during the work. Please be aware that unforeseen high wind gusts may impede our ability to reduce overall dust levels.

We understand this work will have an impact on you and your neighbours and we appreciate your ongoing patience and understanding.

WANT TO KNOW MORE?

ARTC is committed to working with landowners, communities, state and local government agencies as a vital part of our planning and consultation work, and we value your input. If you have any questions or comments, please let us know.
