

WAUCHOPE LEVEL CROSSING MAINTENANCE November 2021

Commencing 5:00am Sunday, 14 November

Level Crossing Maintenance

Australian Rail Track Corporation will be carrying out maintenance work on the Oxley Highway level crossing in Wauchope **from 5:00am – 6:00pm on Sunday 14 November 2021** to ensure ongoing track safety and reliability.

How could this work affect you?

There will be traffic impacts, it will be noisy at times, and some dust may be generated. Please be assured that we will implement measures to manage and minimise these impacts on the community where possible.

Traffic controllers and temporary signage will be in place to safely guide all road users around any changed traffic conditions. Please keep to the speed limits and follow the direction of the traffic controllers and signs.

The work will involve the use of machinery which will generate some noise. We will turn off machinery when not in use, arrange work in stages and/or phase the equipment used at one time to reduce noise impacts where possible.

The movement of materials and machinery on site may result in the generation of dust. We will take practical measures to reduce the amount of dust produced by our works. We recommend keeping windows and doors closed during the work. Please be aware that unforeseen high wind gusts may impede our ability to reduce overall dust levels.

We thank you for your patience and understanding while these essential works are being undertaken.

For the latest information on our planned work please scan the QR code with your smartphone or QR code reader.

WANT TO KNOW MORE?

ARTC is committed to working with landowners, communities, state and local government agencies as a vital part of our planning and consultation work, and we value your input. If you have any questions or comments, please let us know.
