

RAIL SHUTDOWN WORKS NORTH COAST: TELARAH TO ACACIA RIDGE MARCH 2022

Saturday 12 March – Sunday 13 March 2022

Upcoming rail works in your area

Australian Rail Track Corporation (ARTC) will be carrying out essential track maintenance and improvement works at various locations on the north coast line between **Telarah NSW and Acacia Ridge QLD**. Works will commence **6:00am Saturday 12 March** and continue through to **8:00pm Sunday 13 March 2022** including **nightworks in some locations**.

We will begin mobilising to site and carrying out minor preparation work in the weeks prior to the shutdown work commencing. Site clean-up will commence in the days following the shutdown and will be completed during standard construction hours.

How could this work affect you?

There may be some traffic impacts, it will be noisy at times, light towers will be used for any night works, and some dust may be generated. Please be assured that we will implement measures to manage and minimise these impacts on the community where possible.

Temporary signage will safely guide all road users around any changed traffic conditions. Please keep to the speed limits and follow the direction of the traffic controllers and signs where appropriate.

We will turn off machinery when not in use, arrange work in stages and/or phase the equipment used at one time to reduce noise impacts where possible.

The movement of materials and machinery on site may result in the generation of dust. We will take practical measures to reduce the amount of dust produced by our works where possible.

Light towers will be required to ensure a safe work environment during the night. We will position the light towers so that light is directed away from residences.

For information on passenger train impacts, please contact Transport for NSW on 131 500 or visit <https://transportnsw.info>
