

Starting from 6:30pm Thursday, 10 February

Liverpool Street, Scone

Australian Rail Track Corporation (ARTC) will be carrying out maintenance work on a level crossing in your area. This maintenance work is essential for ensuring track safety and reliability.

For safety reasons, we will need to **temporarily close** the level crossing on Liverpool Street. Drivers will not be able to use **this level crossing from 6:30pm Thursday 10 February to 5:30am Friday 11 February**. Those persons with accessibility requirements are advised to use the pedestrian level crossing at Kingdon St. Please refer to the map on the other side of this notification.

The information provided is correct at the time of publishing but is subject to change due to unplanned or unexpected events such as operational changes or heavy rain.

Our response to COVID-19

Rail is an essential service which facilitates the movement of freight across the country for the benefit of the Australian economy and jobs. This is a responsibility ARTC takes very seriously, and we are working hard to ensure we balance the challenge of ensuring the safety and reliability of a critical transport network, alongside our obligations to meet and respond to the current public health challenges associated with Covid-19. We are committed to adhering to the NSW Government guidelines and where practicable will implement additional control measures.

The image below indicates the location of the maintenance work in Scone:

Pedestrians who do not have accessibility needs will be guided across Liverpool St level crossing – short delays are expected.

For the latest information on our planned work please scan the QR code with your smartphone or QR code reader and scroll down to Track Work.

WANT TO KNOW MORE?

ARTC is committed to working with landowners, communities, state and local government agencies as a vital part of our planning and consultation work, and we value your input. If you have any questions or comments, please let us know.
