

The Value of Rail

The rail industry supports economic growth, creates jobs and enables the development of thriving and sustainable cities and towns. Each year it contributes over \$30 billion to the Australian economy.

Nationally the rail industry employs over 165,000 workers. Of that, freight rail employs over 21,000 people across Australia and continues to grow year on year.

Keeping things moving is no easy feat, and our passionate people play an important role in making it all happen safely. Everyone from infrastructure maintainers, signal electricians, civil and structural workers, network controllers, systems engineers and support and service roles are needed.

As a national business in a sector undergoing rapid, positive changes, ARTC offers a diverse, challenging and exciting work environment. Our stories are as diverse as we are.

So why not join us? For more information visit artc.com.au/careers

In 2021, a valued member of our Maitland team won the Department of Education's 2021 NSW Trainee Awards - Hunter & Central Coast.

CAUTION STOP AND LOOK

Please stop, look and listen at all level crossings.

As we rush back with excitement to see our friends and family during the summer season, please exercise patience at all level crossings.

Stop, look and listen at all level crossings and remind everyone who is travelling to do the same.

See you at Steamfest!

Have you ever seen a steam train? The billow of steam that floats across the sky. The train driver pulls the cord and the train whistle blows a soft, then high pitch evoking the image of the station master saying, All aboard! The level crossing chimes as the locomotive moves by and people wave in excitement as the train picks up speed.

The heart and soul of Steamfest is its impressive assembly of steam trains. Be a part of the ARTC Great Train Quad Run or take a ride on one of the many unique train trips visiting various Hunter destinations.

Adam Franks, City Event and Activation Coordinator expressed his gratitude on behalf of Maitland City Council and the Steamfest Committee to ARTC for their valued support. "We are excited that ARTC are committed to continue as the Rail Program Community Partner in 2022 and play an integral role to the overall success of the event."

The 35th Burton Automotive HV Steamfest is set for 9-10 April 2022. For all the most up to date information checkout www.steamfest.com.au
