<u>ARTC Network Location:</u>			
Line Section:	_____		
Kms:	_____		

Refer ARTC RACN 1300001 -- RAS Manual implementation for the ARTC Network in Queensland.

ARTC issued a Notification of Change to the Queensland Rail Safety Regulator on 1st Feb 2013 relating to introduction of the RAS Manual in Queensland.

A Notification of Change was also issued to the Office of the National Rail Safety Regulator (ONRSR) for South Australia and New South Wales. However, the ONRSR deemed the implementation of the RAS as a Variation of Accreditation in these States.

ARTC has received (25/03/2013) advice from the Director (Rail Regulation) for the Queensland Government's Department of Transport and Main Roads requesting that ARTC does not implement the RAS in Queensland until such time as they approve the implementation in Queensland in coordination with the ONRSR. --

ARTC RACN 1300001 and RAS V1.2 are currently not effective in Queensland until further notice or advice otherwise from the Queensland Rail Safety Regulator / ONRSR.
