ROUTE ACCESS CONDITION NOTICE (RACN)

Notice No. 26-046

Subject Title:	Scrapping of 90 Class Locomotives at Werris Creek
Operator(s):	Pacific National
Effective From:	07/09/2026
Effective To:	07/03/2027

Reference Documents:

Route Access Standard: RAS Appendix C, RAS General Information, RAS H2 Section Page

General Details / Operating Condition:

Waiver to the conditions of section 3 of RAS Section Page H2 is issued to Pacific National for the restricted operation of 90 class locomotives entering Werris Creek Yard under the following conditions:

1. The waiver permits only those 90 class locomotives which are hauled dead attached and unprovisioned to be permitted and to be operated as part of this Notice. 90 class Locomotives will be prepared and transferred in accordance with Pacific National document “RSN L 26-018 Movement of Light 90 Class Locomotives for disposal in WCK Yard”.
2. Locomotives shall be reduced to 27.5 TAL or lower before entering Werris Creek Yard.
3. Tractive effort will be provided by one fully active 129T-136.2T Locomotive.
4. Areas of operation are limited to those sidings and loop line as illustrated in figure 1.
5. When entering the yard, no more than 2 x 90 Class Locomotives may be hauled by appropriate locomotives (137t gross vehicle mass or lighter).
6. The movements shall be piloted at maximum speed 5km/h for the movement.
